Education

Graphic Era Hill University, CGPA   **Sep. 2023 - Present**
Bachelor of Computer Applications, 9.0 CGPA   *Bhimtal, Uttarakhand*

Skills

Languages: Java, Python, C++, JavaScript
Developer Tools and Platforms: Git, Linux, Visual Studio Code, Canva, MYSQL
Technologies and Frameworks: MongoDB, Express.js, React.js, Node.js, Tailwind CSS, Bootstrap
Soft Skills: Communication, Teamwork, Leadership

Projects

iLearnYoga | *MongoDB, Express.js, Node.js, JavaScript, React.js*   **Oct. 2024**

- Engineered a full-stack web application for over 500 yoga enthusiasts, enabling users to create accounts, book sessions, and track progress.
- Implemented user authentication via JSON Web Tokens (JWT) and crafted personalized dashboards, increasing user engagement by improving average session time by 15 minutes per user, within three months.

Study AI | *React.js, Tailwind CSS*   **Jan. 2025**

- Developed a responsive, interactive web application using React and Tailwind CSS, featuring user authentication, AI-powered study material, quizzes, and a personalized dashboard to track progress.
- Crafted an AI-powered assistant UI to provide real-time study recommendations, topic searches, and an interactive chat experience, optimizing user engagement and learning outcomes.

Temple Traffic Management System | *MongoDB, Express.js, React.js, Node.js, REST API*   **Apr. 2025**

- Engineered a full-stack MERN application to optimize visitor flow and reduce congestion at high-traffic religious sites, featuring an advanced booking system and real-time traffic analytics dashboard.
- Implemented geolocation-based route optimization algorithms that analyze traffic patterns to suggest alternative pathways, reducing average wait times by 30% and improving overall visitor satisfaction.
- Built an interactive map interface with React.js that visualizes congestion metrics, highlights nearby attractions, and displays lodging options within a 5km radius, resulting in a 25% increase in user engagement.

Experience

Freelancer (Full-Stack Web Developer)   **Oct. 2024 - Present**
Remote

- Orchestrated Agile development methodologies, reducing project delivery time by 25% and ensuring timely releases of key features and updates.
- Integrated third-party APIs and services, enhancing functionality, and streamlining operations for businesses, contributing to a 40% increase in customer engagement.

Relevant Coursework

Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Discrete Mathematics, Web Development, Digital Logic Design

Achievements

- **Secured 1st position** among **100+ participants** in C-Cipher competition organized by seniors.
- **LeetCode**: By solving over **340 algorithmic challenges** on LeetCode, enhancing proficiency in data structures and establishing a robust foundation for complex problem resolution across diverse coding scenarios.

Certifications

- Full Stack Web Development   *Apna College* - Jan. 2025
- Data Structures and Algorithms   *Udemy* - Aug. 2024
